Jubilee Theatre is the original home of African-American theater in North Texas. The Theatre has an established reputation of producing original musical works, presenting new works, and well established works of dramatic and musical theatre. Many of these productions have won awards for acting, directing, and design. Creative programming also includes educational outreach and touring programs, presenting theatre to students in the DFW area. Now in its 33rd Season, Jubilee Theatre is a gem in the Fort Worth cultural and arts scene.

Starting in the Theatre lobby, Artistic Director Tre Garrett will give a brief history and talk about Jubilee Theatre's past productions using the wall of show photos as visual reference. Then, we'll enter the Theatre where Tre will speak about the 2013-2014 Rhapsodies Season, ending with Q & A! (There will be plenty of room to sit!)
