**Scholarship Name:** AAUW - Tarrant County Branch Scholarship

**Student Name:** Alice Kim

**Campus Attending:** Northeast Campus

**What does receiving this scholarship mean to you?**

This scholarship will help greatly in covering my financial needs. I was working full-time but this scholarship will help me to work less and I will be able to concentrate more on my studies. I am very appreciative to AAUW.

**How did you feel when you learned that you were being offered this scholarship?**

I could not believe it. I had thought I was not going to receive any scholarships this semester. When I heard I had been selected as a recipient, I kept thanking God. I am very happy and it made my day.

**What are your educational goals and how will receiving this scholarship assist you in obtaining these goals?**

My educational goal is to complete my Associate of Arts in Teaching. My next goal is to transfer to UTA where I plan to obtain my elementary educational certification during my junior year. I am also learning Spanish so I can speak Spanish fluently when I graduate from university.

**What are your career goals and how will receiving this scholarship assist you in obtaining these goals?**

My ultimate career goal is being the president of an elementary school and having my own private school. This scholarship encourages me to keep up with my studying. I have pushed myself too hard working and studying and I have barely had time to take a rest. I am very grateful that now I can have more balance in my life.

**What are your hobbies and how do you like to spend your “down time”?**

My hobby is shooting vidoes of my life. Through them, I have learned who I am, how to love myself and how to accept myslef just the way I am. When I feel sad or have any concerns, I record myself and say, "It is okay, everything will be okay." This makes me feel relieved.

Dear Donor,

I am very honored to be selected by AAUW. I had a very hard time in 2018 working full-time and studying at the same time. Sometimes I felt I was not a student because I spent more time at my work than in school. This opportunity will allow me to work less and concentrate on my studies as well as getting some physical and mental rest. I promise I will become a successful woman in Texas so I can provide scholarships to students who really need financial aid like you did. Thank you very much for this opportunity.

Sincerely,

Alice Kim
